Contract Information

Honors students are expected to complete approximately **one credit hour** worth of work *in addition to* their course requirements. Please discuss these additional requirements with your instructor and describe these details below:

When will you meet with your instructor? Meetings should be regularly scheduled this semester.

Honors Enhancements ideally result in some sort of product that can be shared and/or stored in an ePortfolio. Please describe the product that will come from this enhancement; if unclear, discuss with the Honors Program Director first.

Students completing Honors enhancements are invited to apply to present their work at Avila's annual celebration of student scholarship, **Student Scholar Day**. This event is typically held on a Tuesday or Thursday in late April. The Honors Program Director will hold a workshop in early March to discuss how to submit and present your work. Please indicate whether you would like to attend the workshop:

Yes, please invite me to the workshop
(this does not commit you to submitting your work)

No, please do not invite me to the workshop
